Any 2 Scatter Chart – great to look at the ability to move a child from one proficiency level to another!
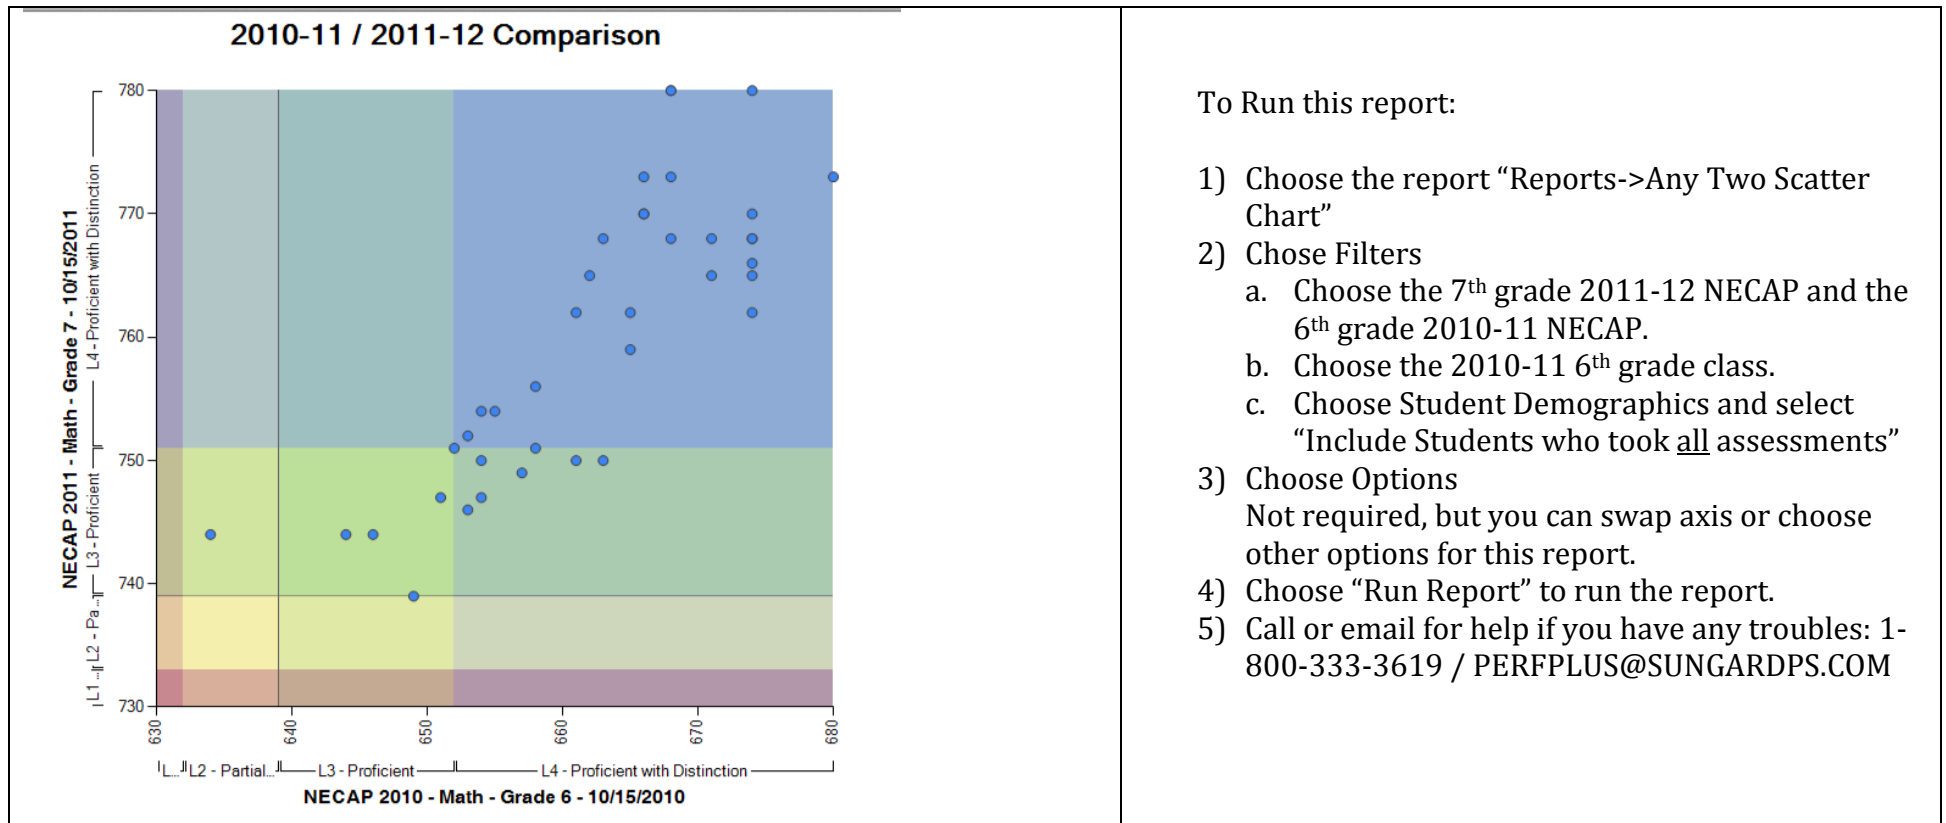

Any 2 Scatter Chart: This report can have many different uses depending upon the assessments you choose for the x and y axis. In this example, we are viewing a cohort of students who took the 6th grade assessment in 10-11 and also the 7th grade assessment in 11-12. You can plot how students progressed from the 6th to the 7th grade. Were the students in the class able to advance from a lower proficiency to a higher proficiency?

Note: Right now you can plot any two assessments (one on the x and one on the y axis. In the future you will be able to plot a dynamic filter against an assessment score (e.g. NWEA results versus student attendance).

To Run this report:

1) Choose the report "Reports->Any Two Scatter Chart"
2) Chose Filters
   a. Choose the 7th grade 2011-12 NECAP and the 6th grade 2010-11 NECAP.
   b. Choose the 2010-11 6th grade class.
   c. Choose Student Demographics and select "Include Students who took all assessments"
3) Choose Options
   Not required, but you can swap axis or choose other options for this report.
4) Choose "Run Report" to run the report.
5) Call or email for help if you have any troubles: 1-800-333-3619 / PERFPLUS@SUNGARDPS.COM
